

# Senso

Design: Torbjørn Anderssen and Espen Voll

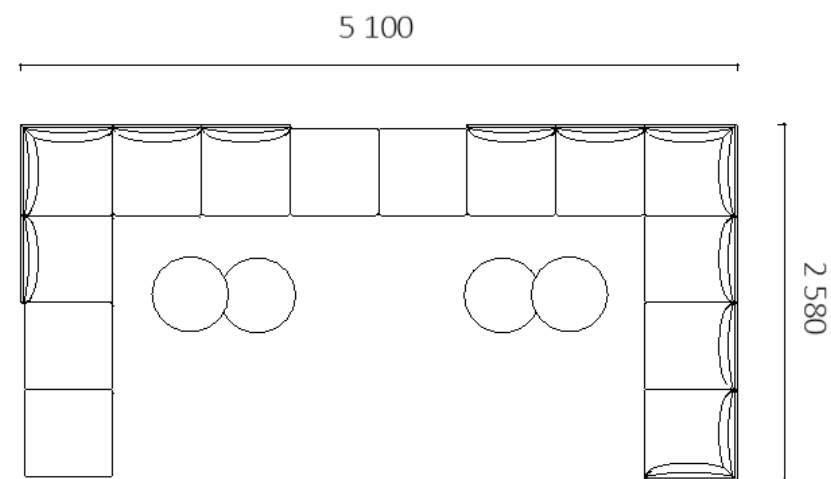

*Senso sofa system* is designed by the renowned duo Andersen and Voll.

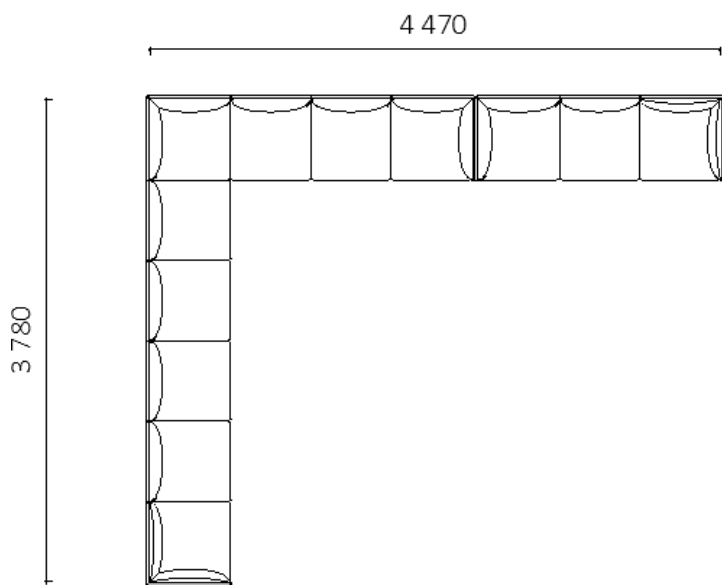

The designers set out to make a modular and flexible sofa system that would make furnishing easy and that would appeal to informal meetings between people.

Senso sofa system meets the acoustic challenges one encounters in modern office spaces.

The system differentiates it self by being space efficient and allows for a large number of different solutions and creative configurations. The height of the seat is in line with universal requirements and the gap between the sofa and floor allows for easy cleaning

*Anderssen & Voll* was established in the fall of 2009. Torbjørn Andersen and Espen Voll were previously founders and running partners of the design group Norway Says.

Anderssen & Voll works within various fields of design but focus in the domestic objects.

Design at A & V means being receptive to cultural and market trends, and applying this knowledge in forward-thinking ways to generate ground breaking and desirable products.

Anderssen & Voll have received several awards for their work; including Wallpaper Award, IF Award and Honorary Award for the best Design in Norway.
